

THANK YOU!

Sheepscombe School is now running on sunshine!

Thanks to the enormous generosity of our village, school and local business communities, we're thrilled to say that Sheepscombe School's recent solar campaign met its target.

Our shiny new solar panels were installed over February half term and are already up and running. This project is expected to save 4 tonnes of carbon annually, as well as generating savings for the school and launching our Eco-School initiative. It's a fantastic step forward for the school and we're so grateful to everyone who has made it possible. Thank you all,

Vicky Barron, Head Teacher
Elisabeth Skinner & Lynsey Willis, Co-Chairs of Governors
Chloe Turner & Mark Shorrock, Parents/Project Leads
